1???????????-???"?????????  
2?????????  
3????????????  
4?????????

The three diagrams show a forklift operator performing different tasks in a warehouse rack system:

- Diagram 1 (Left):** The forklift is positioned at the front of a rack aisle. The operator is reaching forward to push a load into the rack. The caption indicates this is for loading goods from the front.
- Diagram 2 (Middle):** The forklift is positioned at the front of a rack aisle. The operator is reaching forward to pull a load out of the rack. The caption indicates this is for unloading goods from the front.
- Diagram 3 (Right):** The forklift is positioned at the back of a rack aisle. The operator is reaching back to pull a load out of the rack. The caption indicates this is for unloading goods from the back.
